

CME Approved Clinician Seminar

Clinician Seminars are designed for licensed healthcare professionals who provide medical care to adults diagnosed with cancer and chronic disease. They are approved for AMA-PRA Category 1 Credits™. [Click here for details.](#)

Clinician Seminar: A three-day seminar for review of the scientific data supporting the medical treatment of cancer and chronic disease. Case histories are utilized to demonstrate the essentials of patient care and treatment in the areas of targeted therapies, nutrition, diet, gut rehabilitation, immune regulation, and detoxification support.
