

The Seventh Annual International IPT Conference Wyndham Magnificent Mile, Chicago, Illinois, USA

Dear Colleague, Friend, and Associate,

On behalf of the Elka Best Cancer Foundation, I would like to extend to you a personal invitation to co-sponsor, exhibit, and attend the Seventh Annual International IPT Conference to be held at the Wyndham Magnificent Mile in Chicago, Illinois, USA from 23-25 October 2009.

We are pleased to invite you to participate in the transformation of cancer care as we know it....

This important educational conference will focus on the use of a technology called Insulin Potentiation Targeted LowDose (IPTLD) Therapy. We at the Elka Best Foundation are proud to be a partner of the only international event that focuses on IPTLD and believe that "The Best Answer for Cancer" is an integrated, holistic platform of healing and strengthening modalities that supports a targeted cancer therapy that's deadly to the cancer while being gentle on the patient. IPTLD is our targeted cancer therapy of choice.

Even I am still astonished by the facts: 565,000 people will die this year alone from cancer. With cancer now as the second leading cause of death in the United States, there has never been a greater need for Physicians, health care providers, researchers, and members of the public to come together, share best practices, and learn more about what this safe and innovative form of Insulin Potentiation Targeted LowDose Therapy can contribute to cancer care. The voice of cancer survivors, patients, and the people who love them must be heard! IPTLD is an idea whose time has come!

Together we can get there. Together we can make a real impact. I hope that you will accept my invitation and make plans today to be a part of this important and exciting event! (Check out our great Guest Speakers on the next page!)

Sincerely,

Annie W. Brandt
Executive Director and Co-Founder
The Elka Best Foundation

This Year's Conference focus is on "Toxins/Detox and Their Relation to Cancer and Chronic Disease". We are honored and pleased to announce our guest speakers:

Doris Rapp, MD: Board-Certified in Pediatrics, Allergy and Environmental Medicine. Dr. Rapp has written eleven books, including the New York Times best-seller "Is This Your Child?" She has also produced numerous educational videos and DVDs and has appeared on Oprah, Donahue, Larry King Live and others.

Caroline Sutherland, Medical Intuitive: Medical Intuitive, health expert and best selling author of The Body "Knows," books published by Hay House. Vast clinical background in environmental medicine.

**In addition, we will have key IPTLD physicians presenting their experiences with IPTLD in treating cancer and chronic disease, as well as different aspects of guarding against and purging toxins from the body.
